POOSEY STIRRED

BY O. P. JACKSON

At Poosey Friday night, County Attorney O. P. Jackson delivered another of those little more than luke warm democratic addresses which have been attracting so much attention in this and other counties recently. There was a big and enthusiastic crowd. The statements of Mr. Jackson, who had with him some intimate knowledge of the League of Nations, as well as other data, were so convincing that there were rousing cheers very frequently.

The origin, formation, object and other matters pertaining to the League were explained as they have never been before by the speaker, and there were inquiries here and there which were resultant of clear and understandable answers, with the apparent result that all were satisfied. It is said the event was the most genuine of any democratic oration delivered in that neck of the woods in a long time.

BIG STOCK SALE PREDICTED SOON

That the sale of horses and cattle next court will be large, is the opinion advanced by many who have stock to sell. Some of them state they have been holding the stock owing to the good grass which has been abundant, but will not take more chances, and will place the stock on the market within a short time. There has been considerable moving of stock especially cattle, recently, at fair prices, however, the prevailing opinion is that the present price will not be maintained long, and this is one of the reasons given for the contemplated selling.

The sale of horses and mules will again be in evidence at the next court day, for which extensive preparations are being made. The sale at the recent event was hampered, it is claimed, from the fact that the streets of the business section of the city were blocked. The sales were held on various corners, with the result that interest was so divided that there were few good sales.

INTERESTING MEETING OF THE MEDICAL MEN

There is much comment on the recent meeting of the Madison County Medical Society at the Hotel Glyn-don, which was followed by a bounteous repast, and which was attended by a goodly number of physicians of the city and vicinity who thoroughly enjoyed the several important features of the session. It is the intention to arrange for another meeting of a similar character, and it is expected that the next one will be even more interesting than the recent one.
